CANYON RIDGE® collection

Clopay offers a complete portfolio of design options for homeowners who love the look of wood, but not the upkeep.

Constructed in durable, low-maintenance steel and composite, these faux wood alternatives offer the best of both worlds – the realism and beauty of a natural stained wood appearance combined with the strength and energy efficiency of insulated steel.

Clopay's extensive selection of faux overlays, designs, windows, decorative hardware and finish colors can complement any home style and budget.

CANYON RIDGE® COLLECTION LIMITED EDITION SERIES

Beautiful and unique, Canyon Ridge® Collection Limited Edition Series carriage house doors are constructed of an energy efficient, durable steel core and finished with full composite cladding and overlays that have the appearance of authentic wood doors.

The cladding and overlay materials are molded from actual wood pieces to replicate the natural texture and intricate grain patterns of the species they emulate. These two layers are attached to a polyurethane insulated steel door for added strength and energy efficiency.

The end result is a distinctive, customized wood-look door that is often indistinguishable from the real thing.
