# GD2SU AND GD2LU

The Gallery® Collection three-layer construction provides exceptional strength, insulation and dent resistance as well as a beautiful carriage house appearance. The 2" CFC-free foamed-in-place polyurethane insulation and thermal break make these doors heat and cold resistant while the tongue-and-groove joint helps seal out wind, rain and snow. Available in short and long panels with multiple window options, the three-layer Gallery Collection is virtually maintenance-free, so the first fabulous impression becomes a lasting impression.

## Durable Construction

- 1 2" thick CFC-free foamed-in-place polyurethane insulation bonded to exterior and interior steel skins with thermal break make these doors strong and energy efficient.
  - 2 Steel coated with hot dipped galvanizing and topped with a baked-on primer and top coat for a virtually maintenance-free surface.
  - 3 Nylon rollers are durable and quiet.
  - 4 Deep embossed panels with natural woodgrain texture create authentic vintage style designs.
  - 5 Rust-proof, aluminum bottom weatherseal retainer and vinyl astragal help seal out the elements.
- 17.2 R-value for optimal energy efficiency and comfort.
  - Galvanized torsion springs are attractive and longer lasting.
